GA Tip: Customer Support

A common issue we see here in customer support, are GolfAchiever units over-tuned! An over-tuning can happen when green and or yellow screw are tighten without loosening its other half. It is important to note that when tuning a GolfAchiever unit you must first loosen the green or yellow screw, before tightening. Select the YouTube link below to watch

the training video on how to properly align the lasers.

GolfAchiever Tuning Video

If you're still experiencing issues, call us Monday - Friday between 8:30AM-2:30PM PST or email support@golfachiever.com.

GolfAchiever provides Accurate, Affordable and All-in-One solutions making it the number one choice for indoor golf for the last 14 years.
